Moxee Hotspot Instructions

1. Power on the hotspot by pressing the power button on the front of the hotspot.

2. To find the WiFi ID and password:
   a. Press the menu button on the top of the hotspot 2 times to get to the 2.4g WiFi info screen.
   b. Then press the power button for OK.
   c. The first line on the screen will display the WiFi name you will connect your device to.
   d. The third line will have the password for the WiFi.

3. To power off the hotspot, press and hold the power button.
